**GRUELING WEATHER.
ENDLESS MILES OF PAVEMENT.
EXCESSIVE WIND, CONSTANT SPEED, DEADLINES.
NO PROBLEM WHEN YOUR OUTFITTED IN TRUCK SAFETY GEAR.**

Truck Safety Gear outlives other safety products on the road. Every safety icon is constructed with American made, all-weather fabric; armored with stress-point and rip-resistant UV stitching; and customized with an array of quick connectors including: brass grommets, bungee cords, PVC, wire spreaders, and wooden sticks to create long lasting performance safety gear you can count on.

Our safety flag collection is constructed from tough, all-weather mesh fabric to channel airflow through the flag, reducing whip; UV stress-point and rip-resistant stitching; and reliable quick connectors. Flags are available in either fire-engine red or ultra-orange. The wideload and oversize load banners are true road warriors -- hand crafted from tough fabric to withstand UV rays, water, oil, salt and most chemicals; reinforced hems, bungee channels and specially formulated jet-black lettering to withstand endless miles of road work and the wrath of Mother Nature.

We are here to serve you. If you have questions or need additional information, call us toll-free 800-220-8323, email tsg@lubbockmetro.com or visit our website: <http://www.lubbockmetro.com/TSG>
Volume discounts available. Custom orders welcomed.

SAFETY FLAGS

Truck Safety Gear's high performance safety flags are hand constructed from durable, all-weather jersey mesh fabric which channels wind through the flag, reducing whip; UV thread, stress point stitching and reinforced quick connectors – bungee cords, grommets, wire spreaders, wooden dowel and PVC staffs – to create a long lasting, resilient safety icon you can count on. Our safety flags are hand constructed from American made products.

Wire Spreader Flag is the perfect combination of strength, efficiency and longevity. We

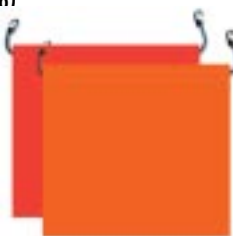

encase a rigid wire inside the reinforced flag hem exposing a single quick connecting eyelet. All-weather, jersey mesh fabric streamlines air flow through the flag -- reducing whip. Armored with UV thread, stress-point stitching and a rigid wire for long term durability.

Fire Engine Red 16" x 16" (B11-1616) or 18" x 18" (B13-1818)
Ultra-Orange 16" x 16" (B12-1616) or 18" x 18" (B14-1818)

Bungee Cord Flag. Our all-weather, highly visible, jersey mesh fabric channels air flow through the flag -- reducing whip. Armored with UV thread, stress-point stitching, rugged bungee cords and hooks, this flag is a versatile, proven performer.

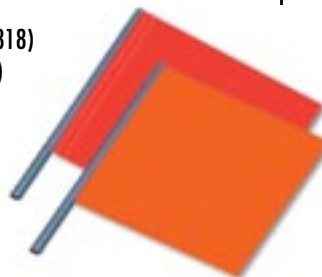

Fire Engine Red 16" x 16" (B61-1616) or 18" x 18" (B63-1818)
Ultra-Orange 16" x 16" (B62-1616) or 18" x 18" (B64-1818)

Grommet Flag is the hardest working safety icon on American highways withstanding high speed, inclement weather and life on the road. All weather mesh fabric channels air flow through the flag -- reducing whip. Armored with UV thread, stress-point stitching and marine grade brass grommets.

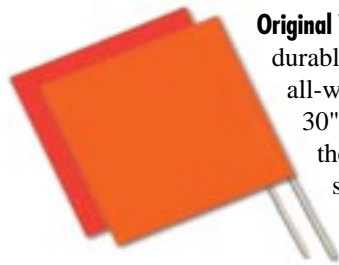

Fire Engine Red 16" x 16" (B21-1616) or 18" x 18" (B23-1818)
Ultra-Orange 16" x 16" (B22-1616) or 18" x 18" (B24-1818)

PVC Flag is strong, sturdy and steadfast. All-weather, fire engine red jersey mesh flag attaches to a thick walled 1/2" diameter (7/8" OD, 1/2" ID), 24" long PVC staff. Armored with UV thread, stress-point stitching and jersey mesh to streamline air flow through the flag, reducing whip -- the PVC safety flag tackles the wind head on. Red 18" x 18" (B41-1818) or Ultra-Orange 18" x 18" (B42-1818)

Original Wooden Stick Flag. Our wooden stick jersey flag is a rugged durable, workhorse essential for fleets on the move. Highly-visible, all-weather, mesh fabric is attached to a rock-solid 3/4" diameter, 30" wooden dowel. The flag material channels air flow through the flag reducing whip; armored with UV thread and stress-point stitching, this flag endures when others fail.

Fire Engine Red 18" x 18" (B31-1818)
Ultra-Orange 18" x 18" (B32-1818)

Magnetic Flag Holders. A powerful ring magnet encased in a low profile nickel/chrome cap with a centered stainless steel connecting mechanism easily identifies unusual shaped loads or protrusions with wire spreader or corner grommet safety flags.
Magnet Dimensions: 3.2" Outside, .425" Tall (B90-9500)

Truck Safety Gear captures motorist attention with a full line of safety flags, wide load and oversize load banners. Our products are engineered for long term durability, resilience under grueling weather conditions and dependable performance, when you need it the most, out on the road.
